

Academics at Home for Literacy & Math

Bridge home and school with curriculum-aligned literacy and math learning.

Make it easy for families to support literacy and math at home with curriculum-aligned PreK–3 activities delivered right to their phones.

TalkingPoints Academics at Home extends learning beyond the classroom through short, engaging activities that fit into everyday routines—without adding work for teachers or requiring new programs, logins, or materials.

Built on the trusted TalkingPoints platform and powered by industry-leading PreK–12 translation in over 150 languages, Academics at Home makes learning equitable, measurable, and easy to scale through meaningful family engagement.

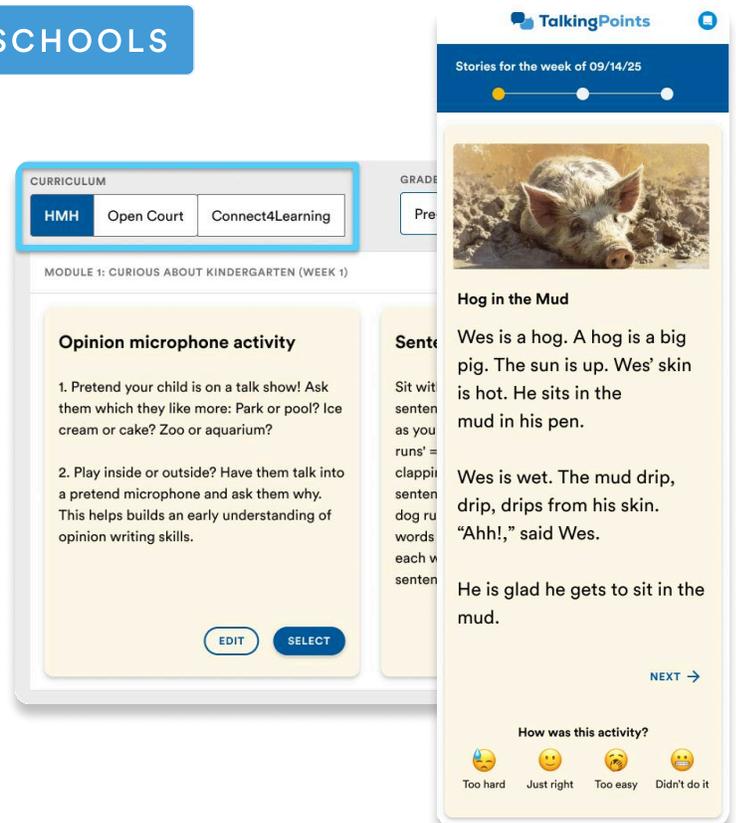

HOW ACADEMICS AT HOME HELPS SCHOOLS

CURRICULUM-ALIGNED LEARNING AT HOME

- PreK–3 literacy and math activities aligned to the district’s core curriculum.
- Activities are paced to instructional units and weekly learning goals.
- Reinforces core instruction—no parallel or competing programs.

SIMPLE FOR FAMILIES. EASY FOR TEACHERS.

- Short, playful activities designed for everyday routines.
- Delivered primarily via text message, with optional access via app and web.
- No new logins, programs, or materials required.

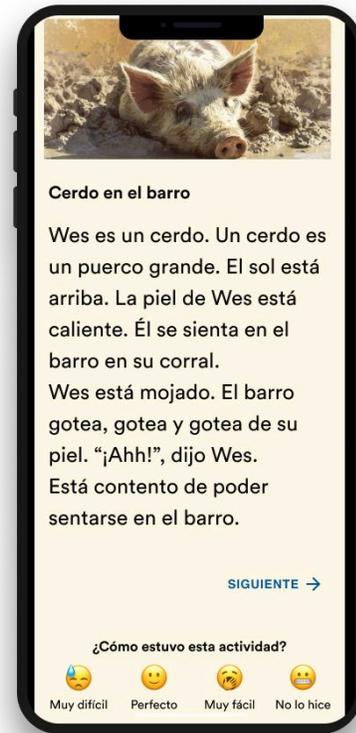

ACCESSIBLE FOR EVERY FAMILY

- Available in 150+ languages to ensure access for all families.
- Designed for SMS text and smartphones.
- Mix of off-screen activities, decodable texts, and simple interactive games.

VISIBILITY INTO ENGAGEMENT

- Track which families participate and complete activities.
- Identify what's working and where additional support is needed.

NEW FOR 2026-27

TalkingPoints Academics at Home includes:

Full alignment to district PreK–3 literacy and math curriculum.

Literacy content can be aligned to the Science of Reading.

Interactive games and hands-on, off-screen activities.

Teacher dashboard shows family engagement.

BUILT FOR DISTRICT SCALE

TalkingPoints Academics at Home is a districtwide solution that extends instructional impact while strengthening family-school partnerships without adding work for teachers.
