TalkingPoints
FOR SCHOOLS & DISTRICTS

Universal Admin Communications

Engage equitably with all families using an enhanced suite of tools

The TalkingPoints Universal Admin Communications suite gives site and district administrators the tools they need to build effective family-school partnerships.

Administrators can engage directly with families through personalized and accessible communications:

Messaging
Provide consistent information to all families with translated school- and district-wide messages

Audio Messaging
Bring your voice to every family with audio messages translated into the languages in your learning community

Video Messaging
Send videos with captioned subtitles translated into the languages spoken in your learning community

Email
Ensure important information reaches every family, by sending an additional translated email with messages

Polls
Gather valuable insights & feedback from families with easy-to-use translated polls
